PROFESSIONAL SUMMARY

Executive technology leader and **Six-Sigma Black Belt** with over **14 years of experience** scaling massive consumer platforms, engineering portfolios, and cross-functional organizations. Expert in bridging **Product Strategy with Engineering Execution** for high-volume streaming and commerce platforms (**30M+ users**). Proven track record of taking on the organizational heavy lifting to build **"Team of Teams"** structures, manage **multi-million-dollar roadmaps**, and drive **architectural transformations** in **OTT, Finance and Retail** domains. Passionate about leveraging **GenAI** and modern data stacks to drive business innovation.

SKILL HIGHLIGHTS

- **Group Leadership:** Portfolio Management, Resource Planning, Budget Governance, Executive Reporting, Vendor Management, Cross-Functional Governance.
- **Domain Expertise:** OTT/Streaming (SonyLIV), FinTech & Retail Commerce (Walmart), Personalization Engines, Identity Management (SSO), Data Privacy (GDPR), Observability & Telemetry (OpenTelemetry/MELT)
- **Technical Strategy:** Microservices Architecture, High-Availability Distributed Systems (99.99%), Cloud Architecture (AWS/Azure), Graceful Degradation (GDFO), GenAI Integrations, Load Testing Strategy.
- **Tools:** Jira, BigPicture, Confluence, Python, SQL, Power BI, Tableau.

EXPERIENCE

SONY PICTURES NETWORKS INDIA | Technical Program Management | May 2021 – Present

AVP, Program Management (Tech & Product) | Mar 2026 – Present

Governing the strategic delivery and technical roadmap for the global SonyLIV OTT platform, serving **30M+ concurrent users**.

- **Organizational Leadership & Scale:** Directed the executive engineering portfolio & cross-functional "Team of Teams" to sustain 99.99% system availability during extreme live traffic events (30M+ users; 250K RPS), including marquee tournaments like the Asian Cricket Championship (ACC). Established strict architectural governance & Graceful Degradation (GDFO) policies to prevent cascading failures during non-linear traffic spikes.
- **Personalization Strategy:** Spearhead the technical strategy and scaling of Personalization Engines, driving complex cross-team integrations to deliver highly tailored end-user experiences.
- **Cross-Functional Governance:** Act as the central bridge between Product and Engineering leadership, ensuring all technical delivery strictly aligns with overarching business priorities.

Lead Program Manager (Tech & Product) | May 2021 – Mar 2026

- **Strategic OPEX & Build vs. Buy:** Managed the multi-million-dollar budget and delivery for 'Bolt' (proprietary CMS), replacing legacy vendors to achieve a 40% reduction in publishing latency and massive operational savings.
- **Data Governance & Scale:** Led cross-functional squads (Legal, InfoSec, Engineering) to define technical roadmaps for US, GDPR, and ROW expansion, architecting regional data isolation boundaries and robust GDPR/PII compliance frameworks.
- **Innovation Strategy:** Steered the "Mobile Web Revamp" and "Shorts" video initiatives, driving architectural decisions that optimized rendering performance and increased ad-inventory monetization.
- **Architectural Modernization:** Spearheaded the transformation of a legacy monolithic backend, successfully decoupling and scaling dedicated microservices across a 4-layer architecture (Edge CDN, API Gateway, Domain Microservices, and Persistence) for critical domains including Playback, Listing, and User Subscription Management.

WALMART GLOBAL TECH | Technical Program Manager | Dec 2019 – May 2021

- **Fintech Architecture & Operational Excellence:** Led the engineering roadmap for the 'Post Payment Audit' system, partnering with Staff Engineers to redesign data pipelines for automated anomaly detection while championing DevOps and CI/CD best practices to stabilize deployments and recover multi-millions annually.
- **Retail Commerce & Platform Optimization:** Governed the cross-functional delivery of in-store financial service platforms, coordinating between Retail Operations and Backend Engineering to minimize transaction latency, accelerate release cycle times, and elevate the Point-of-Sale (POS) experience.

CONDUENT INC. | Business Process Manager | Mar 2019 – Dec 2019

- **AI/ML Strategy:** Spearheaded the development of **NLP-based machine learning models** for customer sentiment analysis, enabling data-driven strategies to reduce churn.
- **Data Visualization:** Delivered executive-level dashboards (Power BI) to visualize revenue trends and operational efficiency, directly influencing quarterly business reviews (QBRs).

INTEL CORPORATION | Senior Business Analyst | Jul 2016 – Mar 2019

- **Platform Integration:** Managed vendor relationships and delivered an integration platform handling **10,000+ daily transactions**, generating \$10M in business value.
- **Big Data Analytics:** Led data analysis initiatives using **Impala and Hive**, applying predictive modeling techniques to optimize supply chain decisions.

EARLY CAREER

- **Business Analyst** | Odessa Technologies | Nov 2015 – Jun 2016
- **Business Analyst** | Accenture Pvt Ltd | Jul 2012 – Nov 2015

EDUCATION

- **MBA in E-Business** | Annamalai University | 2022
- **Post-Graduation in Big Data Analytics** | Illinois Institute of Technology | 2018
- **B.E in Electronics & Instrumentation Technology** | Visvesvaraya Technological University | 2012

CERTIFICATIONS

- PMP Certified (PMP#-3195092)
- Certified SAE5 DevOps Practitioner (Certificate#-86530983-9427)
- Certified Scrum Master (Certificate#-000594368)
- Green Belt Certified in Lean Six Sigma with 7 SQCs by KPMG (Certificate#-BG122014272)
- Black Belt Certified in Lean Six Sigma with 7 SQCs by KPMG (Certificate#-DL122024138)
- Certified Scrum Product Owner (Certificate#-000594368)
- ITIL® Certified and Practitioner (Certificate#-GR750213195VS)
